

#35 – OCTOBER 2024

ToNoWaste DISSEMINATION TO THE STAKEHOLDERS IN THE NEWSLETTER OF HEA

HÄLSINGLANDS UTBILDNINGSFÖRBUND (HEA)

Completed steps in the **ToNoWaste** project are reported on the website [Results - ToNoWaste](#) under "Deliverables". A bit down the same page, short summaries of the practical work conducted under the heading "Practice abstracts" are presented. One of HEA's "Practice abstracts" is about the project's stakeholders in Hälsingland [PA12-SmallMunicipalities_SW-ToNoWaste](#).

Another about how information about the **ToNoWaste** project spread [PA25-Dissemination_SWE - ToNoWaste](#)

The **ToNoWaste** project is arranging an interdisciplinary "**Winter School**" in Valencia on 24–26 February. Target groups are students at all levels, researchers, junior professionals, practitioners in small and medium-sized enterprises and industry, NGOs and actors along the entire food value chain. A "**summer school**" will also be arranged in Vienna/Graz in 2025.

Several practical sub-projects, "Pilot Actions", are underway. HEA's contribution is a

collaboration between [the small-scale Farmers Education](#), and Björs, the potato farmer.

Local radio has made a report. [Järvsö potatoes in focus as Europe aims to reduce food waste - P4 Gävleborg | Swedish Radio](#).

We now have a "**roll up**" on the **ToNoWaste project**, which shows that households are responsible for most food waste in Europe.

Upcoming activities

- An "**Open Learning Lab**" is planned together with the Restaurant and Food Programme (HEA) and HEA's Executive Board.
- An **event with potatoes** in focus is planned by HEA where, among other things, students and potato farmer discuss solutions for reducing food waste in potato production.
